Inflation Equipment

Pillovina-100 | Table-Top Inflation Machine for use with individual bags for air chamber packaging

Less than 300 bags per day

- Retail Table-Top Inflation Machine
- Aesthetically pleasing machine designed for the retail environment, whereas occasional usage and low-noise are the environmental norm.
- Wine bottle air column bags filled in less than 4 seconds (estimated).
- Offered with foot-pedal, for on-demand usage.
- 110V

REG-200 | Regulator Extension Hose for use with individual air chamber packaging bags

Less than 150 bags per day

- Extension hose is designed for the small production manufacturing environment, whereas shop air compressor is available.
- Hold-down clamp with foot-pedal operation allows for hands free operation for filling air columns.
- Wine bottle air column bags filled in less than 4 seconds (estimated).
- 110V

REG-100 | Regulator Extension Hose for use with individual air chamber packaging bags

Less than 25 bags per day

- Extension hose is designed for the small production manufacturing environment, whereas shop air compressor is available.
- Wine bottle air column bags filled in less than 4 seconds (estimated).

Note: Fully Automatic Inflation Equipment available at lineal inflation rate of 50 feet/minute.
