

REG-100

Regulator Extension Hose for individual air chamber packaging bags. Inflates less than 25 bags per day.

- Extension hose is designed for the small production manufacturing environment, whereas shop air compressor is available.
- Wine bottle air column bags filled in less than 4 seconds (estimated).

Our Inflation Machines are simple and easy to use, speeding up your production line. Just place the tip of the inflation nozzle into the “air intake port”, and each “air chamber column” will fill individually and uniformly at the same precise air pressure.
