

## REG-200

Regulator Extension Hose for individual air chamber packaging bags. Inflates less than 150 bags per day.

- Extension hose is designed for the small production manufacturing environment, whereas shop air compressor is available.
- Hold-down clamp with foot-pedal operation allows for hands free operation for filling air columns.
- Wine bottle air column bags filled in less than 4 seconds (estimated).
- 110V

Our Inflation Machines are simple and easy to use, speeding up your production line. Just place the tip of the inflation nozzle into the “air intake port”, and each “air chamber column” will fill individually and uniformly at the same precise air pressure.
